Educational News:

Rachel Montag submitted update to the board was that we wrapped up a great year at GC-B and are already looking forward to August when our staff and students return. We will have several new staff members joining us in August, and they will attend a New Teacher Training on August 5th. We anticipate that classroom locations will remain the same for the 2025-2026 school year. Summer Camp is well underway at GC-B. We have 37 kids enrolled, and our teachers have some really great learning experiences planned. We have had good student attendance so far. Camps will continue through the month of June.

Superintendent Peppmeier updated the board that the district received an official complaint filed by a parent in regard to a special education IEP. We are currently working with the state and our lawyers on this incident. Summer projects are really coming along. Our new doors are currently getting installed. The week of June 30th they will begin abatement in the school hallways. The school part of the building will be off limits for a few weeks while this all takes place.
